EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Popa (Reg# 43,010) on 20 October 2005.

The application has been amended as follows:

Claim 9. A method of communication between local and remote systems via an intermediate system, each system including a transport entity providing transport services, and a security entity logically positioned above the transport entity for setting up secure communication sessions with peer entities; the method comprising:

the local system establishing first and second secure communication sessions respectively with the intermediate system and the remote system with second protocol data units (PDUs), associated with the second secure session being encapsulated as payload within first PDUs associated with the first secure session that each comprise addressing information, a type indicator, and said payload, and

the intermediate system using said type indicator to determine whether a first PDU it receives encapsulates a second PDU or whether it holds data for use by the intermediate system.

1. Claims 1-6 and 9 are allowed.

The following is an examiner's statement of reasons for allowance: The cited prior art, Kirby et al US Patent No. 5,898,784 and Redlich US Patent No. 6,591,306 fail to specifically teach the tunneling mechanism establishing a first security session with an intermediate system and a second nested security session with another a peer remote application entity on a remote system. As a result, the cited prior art fails to anticipate or render obvious the above cited claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew L. Nalven whose telephone number is 571 272 3839. The examiner can normally be reached on Monday - Thursday 8-6, Alternate Fridays.
